85**Law to Protect Game and Fish.**

Every sportsman and farmer in Kentucky should make every effort to secure the passage of the newly proposed "Act for the Protection of Game and Fish" throughout the state. This act provides for the creation of a commission that shall look to the preservation and propagation of all kinds of game and fish that are deemed of public value.

Under this act no one will be permitted to hunt or fish on the premises of another without either a county or a state license and of course not without the permission of the owner. Land owners and tenants may hunt on their own land without license.

Wardens are to be appointed for each county, and all persons violating the game laws in any way will be liable to arrest and fine. Game and hunting paraphernalia in the possession of violators of the law will be seized and disposed of by the warden. Part of this money will be paid to the warden, the rest sent to the state treasury to create a fund to be used in protecting and propagating the game. A county license can be secured for \$1, a state license for \$2. A small portion of these fees will go to the County Court clerk for issuing the license, the rest to the state fund.

It is of the utmost importance that the fish and all game and harmless birds be protected, first, because of the food value; second, because of the economic value of birds; third, in order that wholesome recreation may be afforded all who indulge in hunting and other outdoor sports.

Kentucky is far behind many other states in the protection of game. When about all the huffers were killed a law was passed forbidding anyone to kill them. Kentucky should not make this

Your Money Back If You Are Not Satisfied With the Medicine We Recommend.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Royal Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time: twelve tablets 10c, thirty-six tablets 25c, eighty tablets 50c. Sold in Richmond only at our store—The Rexall Store. Perry's drug store.

How to Keep Apples During the Winter.

Mr. J. W. Adams, of Whites Station, this county, has fallen upon a novel way of keeping his apples through the coldest winter weather. He puts them in barrels in a good place in his garden, throwing loose dirt up around them and covering them over the top to a depth of about four inches. On opening some barrels a few days ago he said that he found none of the apples frozen and 90 per cent of them perfectly sound. If apples thus protected could endure the weather of the past months, it seems that Mr. Adams' method might be copied to advantage by everyone.

You judge a man not by what he promises to do, but by what he has done. This is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by dealers. m-1m

The Parcels Post.

Do you know what the Parcels Post is?

It is a splendid public express and light freight service at very low rates, which the government of every civilized, progressive nation, except the United States, gives its people.

The American people have been asking Congress for more than twenty years to establish it as a part of our mail service, the same as in other countries.

It would benefit the people more than any other one thing that Congress could do.

Why don't we have it?

Because the great, monopolistic express companies that have grown immensely rich and powerful by giving bad service and charging outrageously excessive rates fight it.

Because it would end the tyrannical power of the express companies to oppress the people.

A bill to establish the Parcels Post is now before Congress. It was introduced by Congressman Sulzer, of New York, and is backed by the Postal Progress League, an organization of broad-minded, patriotic citizens.

The League has asked help, and its friends should enlist "for the war," and it is going to be a big fight and a hard one, for the express interests have already begun their special efforts to kill this bill.

Never was there so favorable a prospect for getting the Parcels Post in spite of the express companies, and we believe that we shall get it at the present session of Congress if the people will rise up and do their part by signing and sending petitions to their congressmen.

Press Enlisted to Credit.

The Kentucky press is doing its full share of the uplift of the State along all material lines. This is a fact that should be appreciated by the citizens of the Commonwealth. Any community which has a good newspaper should accord it a patronage in some degree commensurate with its merits. Kentucky newspapers in a great majority of cases are deserving of ample support and are rendering better service than it is ever possible for their competitors to pay for.—Louisville Courier Journal.

Chamberlain's Cough Remedy has won its great reputation and extensive sale by its remarkable cures of coughs, colds and croup. It can be depended upon. Try it. All dealers. m-1m

**A Man in the County Jail**

—not long ago—was being visited by a consoling friend. "Don't worry," said the friend. "Remember the adage, 'Stone walls do not a prison make—nor iron bars a cage.'"

"They don't, eh?" said the man on the inside. "Well, they make a pretty darned good imitation."

Well, it's different with wire fences. There are other fences besides the American and Ellwood—that when it comes to real value and service-giving quality are not even "darned good imitations."

The safe plan is to stick to the genuine article—the fences of known quality.

There's a style and weight for every purpose.

You will understand why American and Ellwood Fences stand first and best—if you'll see them.
